Guillausseau. PJ, *et al.* Glycaemic control and development of retinopathy in Type 2 diabetes melitus: a longitudinal study. *Diabet Med* 1998; **15**: 151–155.

In the discussion of our report on glycaemic control and development of retinopathy in Type 2 diabetes, the following sentence: 'In contrast to earlier reports, HbA₁ at diagnosis was not predictive of retinopathy later^{13,15}' should be replaced by: 'In a prospective longitudinal study,¹⁵ which was begun in the pre-HbA_{1c} era, HbA_{1c} at ophthalmologic review was associated in univariate analysis with development of retinopathy. In contrast to an earlier report, HbA₁ at diagnosis was not predictive in our study of retinopathy later.¹³'
